OPENING OF CHILIAN CHAMBERS.

London, 31st—Earthquake shocks were felt yesterday in the Isle of Wight, at Portsmouth, Cherbourg, Havant, Rouen, Caen and other places. Also today in Paris. No damage.

A reporter of the *Times* summoned the Duke of Cambridge and Police Inspector Robinson for assaulting him during a visit of the Fire Brigade to Whitehall last Saturday. Magistrate refused to issue summons, and the *Times* appealed to the Queen's Bench to compel him to do so.

Berlin, 31st—The Samoan Conference will not meet for several days. The protocols have been telegraphed to the different Governments, and instructions are awaited for a final agreement.

St. Petersburg, 31st—At an official dinner in Peterhoff Palace, in honour of Princess Militza, the Czar toasted the Prince of Montenegro as the only true and faithful friend of Russia.

Paris, 31st—Carnot has started for Calais to open the new port. The people at the station cheered him and the Republic.

Berlin, 31st—Twelve thousand men are still on strike in Saar. They have asked the Emperor to receive a deputation from them.

London, 1st—Balfour has presented a Bill to the Commons for drainage works on the Shannon and other rivers and lakes in Ireland; and also for railways.

Pittsburg, 1st—The river near Johnston rose suddenly yesterday and caused a horrid catastrophe. The reservoir in the upper town burst, and the waters swept away houses and inhabitants. Many drowned. At the bridge near New Florence 85 people were seen floating, clinging to planks. Telegrams at midnight report things getting worse gradually,

OPENING OF CHILIAN CONGRESS.

Santiago (Chile) 1st—President Balmaceda opened Congress to-day. The economic state of the country is assured: Ordinary Revenue in 1888 was $50,183,938. Expenditure $46,135,501, leaving $4,048,437 surplus; which, with accumulated surplus, leaves over 25 millions, without counting Peru's debt of $2,386,186 silver, and deposits under Act of 1887 of $1,954,485.

The Revenue for 1890 is estimated at 56 millions of dollars, and Budget at 64 millions. Home Debt reduced to 23 millions odd; Foreign Debt 39 millions. £500,000 of last loan of 3 millions will be devoted to navy, coast defence, army, etc. Railway to Jarapaca will be paid for by sale of nitrate mines.

Imports and Exports in 1888 have increased over 25 millions of dollars.

The President says the first duty of the Government is to improve the Army and Navy, and announces new war-ships in construction. Also new monster guns for coast defence, and military preparations of all kinds for possible emergencies.

The President refers to the treaties of Extradition and Boundaries with the Argentine Republic, and says that the Argentine Government favours a reciprocal Commercial Treaty.

DIVIDED OPINIONS

There are a great many shrewd men of business, principally those who live outside the pessimistic Bolsa atmosphere, who believe that, after four years of spasmodic fluctuations and excruciating doubts, the moment has at last arrived to owe gold in this market. Such is their faith in the financial ability of the Minister of Finance and in the efficiency of his late bills presented to Congress. In other words those optimists, and such as a rule are right in this country, believe in an appreciation of paper and a collateral fall in gold, Unlike the "Atorrante" that writes to the London *Economist* that the republic is on the road to ruin, they are convinced that we are on the high road to a change for the better. We hope the optimists are right; we believe also that the Minister of Finance is on the right track, and we would be still more convinced if his financial policy also implied a steady retrenchment in the lavish expenditure of the Government and an energetic restriction in the issue of paper money and Cedulas. Such heroic measures, however, we are inclined to think, will not be countenanced at a moment when we are all living on inflated credit and speculating on a continuance of the present stage of unexampled prosperity and headlong advance. In the whirl we are carried away, and we laugh at the fears of those who pause on the side of our road and turn giddy at the sight of the country's extravagant pace. We have reached a stage when a poor man cannot cook his "puchero" under 25 cents and a lady cannot walk the streets without a 35-dollar hat—the price of 12 cows in the Tres Arroyos or of a flock of 30 sheep all over the province.

It may happen in the course of events' just as the unexpected always turns up in our sub-lunar affairs, that Minister Varela's happy idea of starting a National Treasury to release gold and silver, bonds and shares, and paper money; of exchanging paper cedulas for gold securities, and of issuing gold certificates to create a duality of currency, will in some fortunate manner bring the country round to specie payments in very few years, perhaps more readily so than the Pacheco process of free banking with its gradual storage of gold reserves out of banking profits. We believe it. It may happen that the extraordinary increase in the flow of immigration to these favored shores and a seasonable rise in the price-level of our staple and other products may powerfully help to hasten the great desideratum of equilibrium between paper and gold; we anxiously hope so, and many are convinced of it. But those expectations, pleasing possibilities, and alluring probabilities may prove fanciful speculations that may or may not turn out true; still we cling to the faith that moves mountains and may restore paper to par, for in matters of belief time and place matter little.

Meantime, what ought to be done, and carried out during this session of Congress is a limitation of the authorized issue of Greenbacks, and this salutary provision is all the more imperious as we are approaching an electoral campaign that may exert extraordinary pressure on our financial system. We mean thereby, that as nearly all the so-called free banks of the Interior are effectually State banks, they are liable to political affections, in the absence of directly individual responsibilities, of a nature familiar not only here but all over the world under similar circumstances. Not even the Argus eyes of a Free Banks' Inspection Board will be able to prevent this promiscuity of finances and local ambition. If the Minister could wipe out the past and all its obligations, sunder the fetters that link the country to State-banking, and frame a bold, broad, and independent free banking policy, then he would secure for the finances of the nation a signal blessing and present a guarantee of a speedy return to specie payments. His hands are bound, and he must resort to measures of a less radical and direct influence in such matters. The die is cast, the course is taken, and all must abide by it, rue it, or, perhaps, reap its benefits.

State banking is the bane of our finances. Now that the Government is no longer in the leading-strings of a financial past, that it can rely with confidence on its revenue, resources and credit, a more independent and less dangerous banking policy might be insinuated; but such suggestions now, in the light of the last few years' financial record, are out of place and will not be listened to. Perhaps in the future, when we are all afloat again in specie payments, something may be done in this regard to thoroughly reform our banking system and raise a barrier against official intrusion in such vital matters, but at present no reasonable plea can be urged against a local government starting a bank based on the credit of the population of a province, no more so than against a capitalist that pledges his money, credit and responsibility individually.

Minister Varela must see and feel this, that we are plunged in a so-called free State banking experiment and anxiously awaiting the practical results, good or bad. The Government, not satisfied with having invited provincial governments to try the experiment with the bait of their local credit in the London market, has now forced the private banks to enter the gilded paper circle—we say forced, because in spite of all the Circean allurements of the fettered —we mean free banking law, these banks, perhaps guided by their instinct of financial self-preservation or independence, refused steadily and bravely to join the banking dissipation. We all await the results. "Qui vivra, verra."

EMIGRATION FROM ENGLAND.

Aix-en-Provence, April 27th.

The London papers call attention to the great number of able-bodied English peasants embarking daily at Liverpool for the U. States. Some days five thousand, some days more. As long as the emigration was from Ireland it caused no unpleasant feeling, quite the reverse, as it is commonly accepted that the more people leave Ireland the better. If the last inhabitant were to embark at Cork it would be regarded as a merciful dispensation. But when English peasants, from Yorkshire or Sussex, from the Humber and the Severn, take shipping for the United States a feeling of anxiety is manifested. Perhaps it would not be thought so bad if Hodge were to go to Australia or the Cape, or to follow Mr. Froude's advice by settling in the West Indies; but he prefers the U. States, the great industrial rival of Britain. Slowly and steadily the people of the British Islands are helping by might and main to build up on the west of the Atlantic the greatest nation in the history of mankind.

Is the U. Kingdom then over-populated, and is Lord Bramwell right in hoping that by means of emigration the wages of the working-classes may improve? Such is indeed the opinion of 90 per cent of intelligent Englishmen. You will find, however, that the same ideas were prevalent in the time of Malthus, and have been for at least two generations. It is now 65 years since the House of Commons voted sums for the removal of the Highland population, to enable the Dukes to clear their estates and turn them into deer parks. The descendants of the transplanted Highlanders are now to be found at Graf Reinet in Cape Colony, or on the shores of New Brunswick and Nova Scotia. Nevertheless the population of Scotland has more than doubled since then, and this question of deer-parks has rankled in the public mind to such a degree that it seems as much the fore-runner of a sweeping change in Great Britain as the name of the Bastille was of the French revolution of 1789.

Not that emigration is a positive evil. If a man can improve his condition by leaving his native country it would be folly to advise him otherwise; and if a country be over-crowded, by all means let the surplus population go. You may, however, deplete the country by means of bad laws, as is the case in Ireland, where the population in 1845 amounted to 8½ millions, and is now reduced to 4½ millions. It is easy to see that some terrible agencies have been at work, for the depletion is still going on, and the apparent object of the British Government is to depopulate the island. There are nominally 4½ million inhabitants, but these are largely made up of the old, infirm, pauper and vagrant class, so that practically the island has little over 3 millions of population. So far from being over-populated, Ireland requires at least 300,000 able-bodied peasants of those who are now fertilizing the plains of Dakota, Iowa and Illinois with their sweat.

Emigration in England has not yet reached a point that can be called injurious, Indeed there is a surplus population of loafers, idlers, rowdies and even of respectable unemployed men, which is a source of constant anxiety. In all the large towns we have a superabundance of unskilled labor, that is of men who understand no calling but to carry bricks and mortar, or to load and unload ships in dock, and also of men of education, such as clerks engineers, physicians and numbers of whom are starving. Many of the latter class would perhaps have done well at trades especially in the Colonies, but it is now too late for them to think of changing their walk in life. And the evil goes on increasing, for every shopkeepor or artisan aspires to make one of his sons a member of some learned profession, unmindful of the fact that every profession is overcrowded. You will constantly see articles in London papers about "What to do with our boys". And that is at present the great puzzle of every father of a family. Yet there is plenty of room in Australia, Argentina, South Africa or the Western States of America for the outflow not merely of Great Britain but of Europe. The emigrants from Great Britain and Ireland have been on the whole exceedingly prosperous in every part of the world where they have tried their fortune. For those who emigrate there is no cause for anxiety or regret. But the future of the Mother country may be ultimately affected, since those who emigrate are always the strongest in mind and body, the most energetic and enterprising. It was the emigration to the New World, after the discovery by Columbus, that drained Spain of her men of backbone, and rapidly reduced her in the scale of nations.

PARIS LETTER

(From our own Correspondent)

April 26th.

If the general trade of the country be weak, there is one branch which is deservedly robust and brisk—that of the sale of Exhibition Tickets. These, following official quotations, cost one franc each, yet they can be had already, it is said, for three-fourths of, aye, for one-half of a franc. This is clearly the result of the Lottery Scheme, which has issued 30 millions of tickets, that is, 1,200,000 'bons,' with 25 tickets representing one franc each. The "bon" gives the right to a chance in the drawings, one every month, from May till October next, and when the grand prize, in each drawing is 100,000 francs. In November the big gooseberry of 500,000 francs will be drawn for, and annually for 75 years, till all the 1,200,000 bons be redeemed at par—but carrying no interest, there will be a drawing for a 'gros lot' of 100,000 francs. If a person purchases one bon for 25 francs, he has the chance of winning the tempting prizes; if he detaches the 25 tickets, and sells them at half a franc instead of one franc, the prime cost of his share amounts to but 12½ francs.

This may complicate the general receipts. It is rumored that the season tickets of 100 francs do not go off as rapidly as was expected. The private guarantee fund of 18 million francs has been wiped out by the loan of 30 million francs. The State and the Municipality have to recoup their 25 million francs by the sales of tickets, plus the proceeds of the debris of the structure. But we see against their 25 million francs of tickets, the Lottery speculation floods the market with 12 million francs of purchased, that is, subscribed for tickets, as coupons to the bon. In 1878, the total receipts of the Big Show amounted to only 12 million francs. Already there are on the market 30 million francs, competing against the 25 million francs issued by the State, with only a discount on wholesale purchases of one per cent. The Exhibition this decade is very beautiful, despite monarchal lacunes; and while the French exhibitions have augmented, so as to make this really a national show, the foreign element has proportionally diminished. For 1889 International Fair to meet expenses, it must double the gate money of 1878, while facing 30 millions of tickets selling at 25 and 50 per cent below the state price. Other curiosity; the number of subscribers for a single share in the 1,200,000 issued exceeded more than the latter total; and yet, the applicants for one share were to be first served. Well, there is not a money-changer's shop-window in the city, but has piles of the Exhibition bons. The loss on the 1878 show was 37 millions francs, and that the State had to meet. France, however, is still able to pay for her glory.

In the short space of ten days, the inauguration of the Exhibition will take place. Despite the fever of twelfth hour exertions, the show will be far from complete, be the excuses what they may, and among the "retardetaires," I regret to have to include the Argentine Republic. It did prodigies in the way of making up leeway, but time, like tide, waits for no one. Perhaps in the early days of June everything will be in apple-pie order. The arrangement of the exhibits will make the show more agreeable to visit. The multiplicity of restaurants will afford pilgrims in search of the "utile" or the "dulce" ample rests. Concerts will be permanent institutions, nor will the eyes be forgotten, as the cascades will be so many pillars of snow by day, and of fire by night. The opening ceremony will be more magnificent than was ever witnessed at any of the previous Exhibitions; and will command all that a liberal expenditure of cash, studied taste, and ripe official experience can effect. It is calculated that Paris will have an extra million of inhabitants added to her population during the first week of May.

Quite a spell has come over the political situation. The people more and more withdraw from active, from belligerent party fighting. They are hungering and thirsting after tranquility, repose, and apart truly from the claims which the success of the Exhibition has o right to exact. More than ever, the nation is resolved to wait till October and arrange the complicated situation itself. Neither the proceedings, nor the findings of the High Court of Justice, nor the manifestoes from General Boulanger, nor the fierce diatribes exchanged in the press, will move the "vox populi" from the position it has taken up. And the party which displays most sagacity will carry the popular vote. The departure of General Boulanger for England commands attention, but excites no sensation. Whether he voluntarily left Brussels, or received a hint to depart, will not affect his fortune or his chances in the eyes of the French. If the high Court of Justice can adduce evidence—that which has not many believers—of Boulanger's culpability of treason, his adversaries need not go to any great efforts to oppose him. But if the proofs fail, his popularity will receive a powerful stimulus. Being kept a profound secret, no one can assert what the Court's proceedings are, as the quorum of investigating Judges sit with closed doors. The terrible attacks levelled at the Court, by pen and pencil, are not calculated to elevate it in popular respect.

It is not improbable that the new Chamber will be more unmanageable than the present. It will contain in any case a higher class of representatives, men of local standing and solid reputation, who must attend to their legislative duties, and not devote their time to personal ends, lobby combinations and coterie victims. As the expiring Chamber will vote the Budget, supplies will thus be secured for a twelve month, and M. Carnot and the Senate can fight the newly elected Chamber of Deputies for a year, and then resort to another dissolution. The disturbing factor in this case is that the people might decide to step in and dictate some unexpected change. But for the present the dominant, the next to unanimous opinion is, suspend political hostilities till autumn, and await the verdict of the general elections.

M. Floquet's visit to Signor Crispi, as commercial traveller unattached for France, if it does no good, can do no harm. Of course he does not expect to bring about a change of relations between Italy and Germany, in favour of France; nor is it possible to see light respecting a renewal of the commercial treaty. Each nation suspects the other of dealing in circumvention, and in the meantime both countries suffer by the separation. Italian wines can find no market, and French wines have but little sales because they want those of Italy for blending up to the desired quality.

The astute silence of Bismarck, the steady armaments of England, the return of the Czar's nervous fits from anticipated Nihilist conspiracies that come into blow as the Emperor falls back on reactionary policies, commence to cast a gloomy shadow over the European situation. Furthermore, the gathering strength of the Algerian Madhi—Senrussi—is becoming more and more a grave care for the French. Gamhatta always apprehended a religious war from that quarter, and considered that the landing of Turkish troops in Egypt would be the signal for the sweeping out of all Europeans from Northern Africa.

To avoid being present at the fetes of the Revolution and the inauguration of the Exhibition, the ambassadors of Russia, Germany and Italy will be conveniently absent from Paris. What will the representatives of England and Austria do? Will the Centenary of the striking off the irons of manacled human freedom start them also? When the final push-over of political plush and Jeamesism?

LONDON LETTER.

STRAFFORD.

(From our own Correspondent)

April 24th.

The Crucifixion and Resurrection have been duly commemorated. Silence was first broken by Lord Salisbury in a series of important political speeches at Bristol. Yesterday Mr. John Morley replied at Newcastle. The very names of these cities recall the events of the "forties" in the seventeenth century. The Liberal press in its comments upon Lord Salisbury's speeches has returned gibe for gibe, and in this sense it seems to have been imitated by Mr. Morley. Compared with Lord Salisbury's utterances I consider those of Mr. Morley morally weak, and I do not think the Liberal journals have grasped the whole meaning of Lord Salisbury's speeches, which amounted to nothing less than a confession of faith as complete, and one can say as frank, as could be expected from a man in his position, the responsibility of which extends beyond the affairs of this kingdom. It is part of the haughtiness of the Marquis of Salisbury's nature to pass with scant remark minor questions, such as the forged letters, the sugar convention, the strife in Birmingham, bye-elections, and to, as it were, get him to an high mountain, and take what he conceives to be an historic and scientific survey of the political situation. His survey might be scientific if the pivot of his mental apparatus were only loosened and he gave the lens of his intellect fairer play and a wider field of vision. I know no one who better proves than Lord Salisbury the opinion of some psychologists that man's intellect is but an instrument and of small account unless guided by the moral and intellectual sentiments which form the man himself. No one is so anxious to ignore this idea as Lord Salisbury. No one is less conscious than he, that he is a living example of its truth. Not to see facts as they are, Lord Salisbury would tell us "is imbecility." Not to see that Ireland hates us and is hostile and that if we give her the chance she would open her harbours to the enemies of this country "is imbecility." Is it possible that Lord Salisbury can imagine that the possibilities he speaks of are not seen by his political antagonists? Will he never understand that the dangers and difficulties of the Irish question are not the point. The point in dispute is the remedy. Hence, Mr. Morley retorts, your one Tory remedy is the "battering-ram. He might have said much more. He might have referred to the cautious and impartial Whig historian Hallan, who in noticing the very arguments now used by Lord Salisbury, that in the days of William III. and Anne, were employed to justify the treatment of the Catholics in Ireland, observes, that compared with the system of persecution adopted, extirmination would have been more politic and scarcely less cruel. Between the policy of the Tory Government as expounded frankly by the Prime Minister and extermination there is no halting place. Now and then he seems to have a glimpse of the practical conclusions of his own logic, and a kindlier feeling prevails; but his mental vision is fixed by the guidance of a malignant and selfish passion and lust of property and social power, which over and over again he translates into the protection of "private rights," "the rights of the minority," and in the same breath he ridicules the notion of Ireland having a "right" to govern itself. "We must not" he says "be misled by these hollow metaphors. Ireland governing herself meant two thirds of the population sitting upon the other third." There is a flippancy in that remark too characteristic of Lord Salisbury's mind, which when not under the influence of the squatter lust is only cynical. Were he himself not of a squatter family, his flippancy could be more rationally employed in condemning the existing situation in Ireland, where one third of the population sits upon two thirds. But animal hatreds, class prejudices and class interests blind the man's intellect. He does seem to see that if extermination is scarcely a resource o. modern civilisation, and if battering rams wear out and become obsolete, something must be done to reconcile a hostile population. But with a frankness quite refreshing he tells us that he has not much faith in mild remedial measures. His one conception is an "adequate Government," which will ensure to the industrious the means of gain and the protection of their gains. This is a mendacious and somewhat stale device for bribing good Irishmen into acquiescence in the existing state of things. They are called upon to sell their birthright and their religion for a fatted calf or for the enhanced price of it. And perhaps some of them would, but Lord Salisbury is sceptical. He is inclined to increase his offer. He looks forward to something being attained—at all events by the landlords—by the extension of Lord Ashbourne's Act. And even here in patronising this last and desperate resource of a waning oligarchy, this theft from the arsenal of an extinct radicalism, this old continental panacea, a peasant proprietary, his lordship shakes his head, as if he had not much scientific regard for such an economic fallacy; and as for local government he almost despises it; and in any case he says if the Irish think they will ever get as much local government as might form "a leverage for the obtainment of Home Rule" they are vastly mistaken. In fact these are small questions Lord Salisbury leaves to be discussed by vulgar politicians. Next to "private rights" the absorbing question with him is the "integrity of the empire" to which all that is interesting in the Irish question pertains. Someone in Berlin has been persuading Lord Salisbury that General Boulanger—poor man, he arrived fagged, befogged, wet, and sea-sick in London last night—contemplates an invasion of this country. Hence the millions to be spent for the national defences, and the wily premier entices the national glance from local affairs, not just now very encouraging to Tory interests, to the long line of coast from the Eider to the Loire, and reminds us of the ease with which hostile hordes favoured by the inventions of modern science could be poured into Brighton and landed on Margate jetty, not to speak of their crowding into the friendly ports of Ballynahinch and Killalloe. This terrible possibility could have been urged with a better grace from the prime minister of a Government whose secretaries of the war department and lords of the admiralty had not a few months ago ridiculed the whole alarmist programme and refused to inquire into the state of the navy. That Lord Salisbury should now make a feature of millitary danger is to be ascribed firstly to his desire to draw the nation's attention from their domestic affairs, and secondly to prepare them for an alliance with Germany—an unholy alliance on his part in favour of old-world, spent political traditions at home and abroad. Where Lord Salisbury's grand foreign policy is likely to be checked is in the homely Sugar Convention of his subordinate, Baron de Worms. Sir Thomas Farror takes the lead in the press, in covering the convention with contempt. "I strongly suspect" he says "that the reed painted to look like iron" is as a reed in the hands of the "man of iron"; that our Government have bound themselves to Prince Bismarck, and that they are ready to sacrifice friendly relations with France, Austria, Belgium, Brazil and the United States, and English interests generally on the German altar. If this Convention passes, not only will Germany save her bounties and at the same time keep the English market, but Magdeburgh will in all probability become the centre of the European Sugar trade and Germany the arbiter of the situation."

"We shall oppose the Sugar Convention" says Mr. Morley "tooth and nail." It is quite within the bounds of probability that under this vulgar pact between the Government and a few Scotch and Huguenot sugar dealers, our modern Strafford will find the block that will end his malice, his cynicism and ambition.

Railway Items.

TRIAL OF NEW ROLLING STOCK ON THE SOUTHERN RAILWAY. DR. ARAOZ ORDERS MESSRS. DRABBLE AND LOCKWOOD TO STOP WORK. ITEMS FROM THE GOVERNMENT OFFICES.

Yesterday a trial was made on the Southern Railway of the new rolling-stock just received from England. The train consisted of a sleeping-saloon, a refrigerating wagon, and a luggage van. All new. At 2.15 p.m. the locomotive whistled and Mr. and Mrs. Abbot's party started in the gayest of spirits for Burzaco. We shall not trouble our readers with an account of the trip. Everyone knows the Southern line, and everyone ought to know Burzaco. But we shall briefly describe the sleeping-carriage, which is most luxuriously and ingeniously fitted up, and which is sure to meet with the approval of all ladies who intend to go down to Mar del Plata next season. The carriage is a six-wheeled one, about 18 tons weight, and travels over the rails so smoothly that one could hardly feel the motion of the train. It is divided into five compartments, quite separate and independent of each other, and so arranged that no comfort is wanting. There is no fear of intrusion, as there is a special passage for the guard, and each compartment has its own lavatory, a priceless boon, so neatly arranged that there is no obstacle whatever. The cushions, curtains etc. are perfection, and the little tables a decided luxury, not to mention the artistically embroidered watch-pockets which hang over each berth. In a word, the carriage is a perfect model of comfort and luxury, and it is with pleasure we state the company have 12 already out. Mr. Abbott has sent home instructions for the construction of 12 more, so that there will be 24 ready for the Mar del Plata season. This is indeed, a reassuring prospect for intending visitors, particularly families, for the recollection of the inconveniences attendant on the journey last season is still fresh. There is no greater luxury than a quiet and comfortable journey; and we are sure that when summer comes round, half the families of Buenos Ayres will sing the praises of the Southern Railway.

In regard to the refrigerating wagon we have little to say. It is most solidly built and can be made completely air-tight. The wagon weighs 16 tons and runs very smoothly. It is intended for the carriage of fresh meat from Ayacucho for the consumption of B. Ayres.

The party returned to Constitucion at about 4 p. m., all agreeably impressed by the journey and the ingenious comforts of the new carriage.

Messrs. J. G. Meiggs Son and Co. have applied for the approval of the plans of the line from San Juan to Cochabamba.

The Board of Public Works recommends Government to name Mr. Rosetti C. E. its representative at the Railway Congress which is to take place in Paris during the Exhibition.

Dr. Araoz received a letter from Inspector Nolasco yesterday, who encloses a protest drawn by passengers of the Andine in consequence of the having delayed the train for a passenger who had remained behind at Rio Cuarto Station. The delay amounted to over two hours.

Government has decided to allow the Northern Railway 15 days to fence in it is line within the city radius.

The Central Argentine and the Argentine Great Western are to be amalgamated, and a proposal to this effect has just been made to government, the guarantee to continue as usual, that is to say at the rate of 7 per cent on $19,500,000 gold. The contract is to last 99 years.

Dr. Araoz addressed last Friday a very stiff note to the directors of the Santa Fe, Cordoba Great Southern, ordering them to immediately suspend their works on the bank of the Parana at Villa Constitution, as said works interrupt traffic. There will be something more to be said about this before long.

The report of the Buenos Ayres and Pacific Railway Company, Limited, just published, is an encouraging document. In common with other lines in the country, the company has, of course, suffered from the recent heavy floods, but the damage is stated to have been promptly grappled with, and the temporary falling-off in the receipts may, therefore, be expected to be recovered. The traffic receipts for the year 1888 show a marked increase, viz, 1,128,227 dollars against 728,197 dollars in 1887. As the increase in the mileage is only 14·44 per cent. (472 miles compared with 360 miles in 1887) against an increase of 55 per cent. in the gross receipts, the development of the older portion of the line is evidently progressing satisfactorily. The directors of the company are also to be congratulated upon the energy with which they have grappled with the rolling-stock difficulty. Taking the bull by the horns, they did not wait until an observant Argentine railway board might have put pressure upon them, but they ordered such an additional supply of locomotives, carriages, and wagons as to fully meet the requirements of the rapidly developing traffic. In this connection it is to be noted that Mr. M. H. Moses, the deputy-chairman, during his stay in Buenos Ayres in July last, made a most satisfactory arrangement with the Government, under which the expenditure for increased rolling-stock is authorized to be met out of the surplus traffic receipts.

Our invaluable correspondent *Idler*, to whom we are indebted for all the particulars of the sad accident on the Great Southern Railway, and who is anything but idle in his disinterested duties as correspondent, sends us the following message from Parish Station, on that railway:

Parish, midnight.

"I regret to state that the life of Fireman Hodgkins, who was fearfully burnt in the collision, is despaired of.

"Fitzgerald, the driver, though severely dealt with, is progressing more favorably.

"The guard of train is also much better.

"Line is now clear, and through traffic without change is resumed."

RACING NOTES AND ANTICIPATIONS.

A first rate programme has been issued for to-day's meeting in Belgrano, and, however numerous defections may be, we doubt it the promised attractiveness of the card can be altogether destroyed. Two large fields are entered for the Premios Del Lago and Junio, with the top of the class, Annamite and Bismarck, annotated in both. As the former does not run for the first mentioned event, it will be safest to select Bismark for the sprint and Annamite for the longer race. The Irishman, however, is not an absolutely certain starter, and in his absence we must leave the result between Caustique and Signet, who is remarkably leniently handicapped, anticipating danger only from Brujo and Cassiopeia. Should Bismarck go for the Premio Junio, he would threaten considerable danger to Annamite, whose otherwise most dangerous antagonists are Gloriation and the pick of the Stud Nuevo. Portenito should account for the Premio Resistencia in spite of the extraordinary favouritism of Cassolette, whilst the Premio Consuelo looks well for Stella. Gaillarde and Kildare between them should take the Railway Handicap, as the latter is in form, whilst the filly had good credentials in England last year.

EDITOR'S TABLE.

The military review and pic-nic at Palermo, and the reception of Alberdi's remains at the passenger mole are the double event for to-day. No doubt, there will be a greater crowd of our pleasure-loving citizens at Palermo than on the mole, though the remains of one of the country's most distinguished men have been brought home.

Neptune favoured the ironclad Admiral Brown. She arrived safely in the Mersey after a very fine passage of 29 days, during which she had only one rough day, the last, in Saint Georgs's Channel.

Overcoats lost and found in the scrimmage at the ball on Wednesday night were advertized by the score yesterday. One gentleman makes a touching appeal and offers a large reward for one of the tatters of his dress coat torn off in the terrific scuffle. Another gent. is honest enough to volunteer to return a top-coat and hat which he appropriated in the heat, or rather the cold, of the moment and the morning.

The Rev. Cecil F. Luckman, of St. John's Church is preaching in St. Bartholomew's Church, Rosario, to-day.

We are requested to draw the attention of our readers to the advertisement of the general meeting of the St. Andrew's Society of the River Plate, which takes place to-morrow night at 8:30 in the room above the Scotch School.

All of our subscribers who put a proper value on their pockets should be very careful now how and from whom they accept notes of the Bank of Cordoba, as an extensive forgery of them has been discovered. These forged notes have the mark as printed in New York at foot.

The captains of four emigrant steamers have been fined for bringing out from Europe old and broken-winded customers unable to do anything but beg. When will the captains give over bringing us these Grecian presents?

Our esteemed colleague the *Globo* must be dashing ahead. It offers from 20 cents to 1000 nats. for all items of news presented to it and guaranteed correct. This is a fine opening for Waiting-for-a-Remittance Esq. and other gentlemen with nothing to do and a rooted disinclination to do anything.

Dont forget, all ye who love good music, that Professor Neiderberger's farewell concert will come off to-morrow evening in the Operal Italiani saloons. The Professor is one of the great violincello performers of the day, and it is really a treat to hear him. He will be assisted in the concert by Señora Tracchia, and Messrs. del Ponte, Ramusel and Wagner.

The training ship Argentina is at Bahia Blanca, and the War Office has received telegrams from Commander Rivadavia, who awaits orders.

The *Courrier* is publishing a news summary of the events of May 1789. It is very interesting. There was a good deal of history started in that memorable month and year.

A correspondent of the *Southern Cross* says that Civil Marriage is by no means so cheap a ceremony as the law meant it to be. He mentions the case of "an unfortunate ("quien sabe?") wight who was fleeced of $200 and is still unmarried."

Several eminent physicians told us yesterday that it is the greatest of nonsense for the Health Board to make such a fuss about the case of berri-berri in port and again put the trammels of quarantine on trade without the shadow of a reason. Berri-berri is not a contagious disease in any way. It springs from miasma and malaria, and under feeding. Iron medicine grapples with it, and it disappears in a few days at sea. There is no chance whatever of its becoming prevalent here, unless more taxation on food reduces the working classes to absolute starvation and thus prepares the ground for it.

The Police Review for May is as interesting as usual. We venture to suggest, however, that "Dramas de Amor" are too exciting reading for susceptible policemen.

Mackern's "Guia" for June is greatly increased in size, and contains every possible kind of information necessary for visitors, travellers, and permanent residents of the city. As for the Pocket Guide, it is a treasure to be stowed away at night under one's pillow, with watch and chain.

According to yesterday's advices from the Mount, the construction of the new port there appears likely to fall into French hands, M. Andrieux, who built the port of Marseilles, being the chief engineer of the new scheme.

Tucuman appears to have frittered away its public lands like too many of its sister provinces. There is a project before the Legislature there for the Government to buy 800 hectares of land on which to start a model farm. The three D's are too often the final resting-place of model farms, colonies, railways, and everything started by Governments.

An American paper states that Mrs Hannah Battersby, stated to be the largest woman in the world, has just died in Philadelphia. She married John Battersby, the "greatest living skeleton." Mrs. Battersby of late years, it is claimed, weighed 800 lbs.

Here is a new story of Paganini. One time in Paris he jumped into a cab and ordered the driver to make quick time to the theatre, where an impatient audience was waiting to hear him perform the famous prayer of Moise on one string of his violin. "What's the fare?" he inquired. "For you, sir," said the driver, "ten francs." "You jest," laughed the great violinist. "Not so—you charge as much for a place at your concert." Paganini was silent for a minute, and then, with a complacent glance at the over-reaching cabman, said, handing him a decent fare, "I'll pay you ten francs when you drive me on one wheel."

A truly funny state of operatic affairs appears to exist just now in Rosario. There is a second-class company there now which ambitiously tries to get through a repertoire that would tax the companies of the Politeama or the Opera House. The result is the most terrific hissing every night. Verdi's Otello is now in rehearsal, and the daring manager scorns to take the advice of his friends not to attempt such a difficult work

De 44 Leguas de 1880 hectareas

Ubicadas en las provincias de Santa Fe y Santiago del Estero a corta distancia de ferro-carril de Buenos Aires Rosario y Colonias y su prolongacion a Santiago y Tucuman a 30 kilometros mas o menos de la estacion Arrufo y no muy distante de las estaciones Hercilia y Ceres, centros de colonia agricolas campos de un inmenso porvenir, las regiones del trigo.

Se remataran por orden de la sociedad Colonizadora Argentina, con la infima base de 5 ps. hectares, Calle Alsina 482.

El Martes, 11 de Junio
A LAS 2 P.M.

Estos esplendidos campos estan situados parte en la provincia de Santa Fe, parte en la de Santiago del Estero distando 35 kilometros mas o menos de los Morteros en la provincia de Cordoba, rodeados por campos del señor Tristan A. Malbran, Colonizadora Argentina y otros.

Estan divididos en lotes de 4 leguas con 7522 hects 9 areas 20 cents y se remataran un lote con opcion a mas o al todo con la infima base de 5 pesos hectarea precio increible si lo comparamos con los campos que se venden por las colonias y que se pagan 80 a 100.000 ps. legua; campos que hacen apenas 8 años no podian venderse arriba de 100,000 ps legua. Hace apenas 3 meses se han vendido campos inmediatos a los Morteros a razon de 7.000 ps. legua.

Los campos que mencionamos y ofrecemos en venta quedan muy inmediatos al ferro-carril de Buenos Aires y Rosario cuya prolongasion a Santiago y Tucuman pasa ya la estacion Ceres en el kilot. 120 que va a ser la gran estacion de maquinas mas estrategica sobre esta via formando bien un importante centro agricola, la estacion Arrufo 80 kils. dista unos 30 kils. mas o menos (6 a 7 leguas) de estos campos y donde pueden dirijirse los interesados que deseen inspeccionarlos y ende en linea recta al Oeste.

La importancia de esta localidad es innegable y a la vista de todo el mundo. La poblacion de Santa Fe va extendiendose con sus colonias hace al Norte y en un par de años terminado que sea este ferro-carril el de los Sres. Portalis y los ramales que se iran construyendo van a dar una gran revolucion en los valores de aquella region.

Ofrecemos hoy una fortuna a los que tienen fé en el porvenir del pais y no deben perderla pues raras veces se ofrece mejor y mas brillante negocio

CON POBLACIONES.

Para todos los gustos y todas las fortunas.

¡Atencion!
EN LOS DIAS
30 de Mayo y 2 de Junio
A LAS 12 DEL DIA

Procederemos a vender en remate publico y en los mismos terrenos. el numero de solares, quintas, y chacras que se dejan espresadas, que constituyen el famoso campo que fue de doña Maria Faulkes, hoy del Consejo General de Educacion de la Provincia.—Por orden judicial dictada en el juicio sobre cesacion de condominio seguido por el Consejo General de Educacion de la Provincia.

Este campo que constituye ejido del pueblo de Brandzen, se reputa:—El mejor partido, el mejor del Sud, el mejor de la Provincia.

El que lo conozca, admitirá esto sin reserva; y el que no lo conozca, que se informe y confirmará la aseveracion.

Se encuentra cortado por dos vias ferreas, la del Sud y la de La Plata, se halla trazada otra para el Monte; se proyecta un mercado de frutos, un tramway a Chascomus y se establecera alli la estacion principal de las empresas que ha presentado al superior Gobierno el proyecto de una red de ferro-carriles de la Provincia. Hecho esto Brandzen tendra como ningun partido, cuatro vias ferreas y un tramway. Fijarse: Cada comprador sera dueño de dar a su terreno el destino que desee, pues esta operacion no esta sometida a las condiciones con que el Gobierno vende los terrenos de ejido. Grandes ventajas—La venta se efectuara: una tercera parte al contado y las dos restantes a plazos de 3, 6, 9 y 12 meses con la guarantia hipotecaria del mismo terreno y con el interes de ocho por ciento annal; cuya hipoteca podra chancelarse antes de su vencimiento si los compradores lo pidieren, pudiendo sustituirse por otra de mas largos plazos en los Bancos Hipotecarios de la Provincia o la Nacion.

Observar—Que el pueblo de Brandzen segun el mapa del Estado Mayor del Ejercito Nacional se encuenta situado a doce leguas y fraccion de kilometros de la Capital Federal, o sea una distancia igual que la ciudad de La Plata. Este campo esta señalado para la agricultura, tambos, pastoreo de invernada y establecimientos industriales. Por lo espuesto pueblo afirmase que Brandzen es y sera una situacion industrial y comercialmente Estrategica. Este es un hecho real y evidente que puede palpar todo el que entienda de negocios. Tasaciones baisimas. Los solares se encuentran tasadas á cinco, nueve, quince, veinte y veinticinco centavos el metro cuadrado. Las quintas y medias chacras a 400 y 800 pesos m/n la hectarea. Las chacras a 200, 250, 350 y 400 la hectarea, Y la fraccion de Estancia con edificios a cuatrocientos pesos la hectarea. Las dimensiones de los solares, quintas y chacras constan de los planos que los interesados podran pedir en nuestra casa de remates y en los demas puntos que mas adelante indicaremos,

Para esta grandiosa venta: Temaremos como base las dos terceras partes de las tasaciones respectivas de donde resulta que se vendera tirado y escepcionalmente barato, siendo la venta forzosa por tener que liquidarse el condominio.

Advertencias — Devidamente autorizados exijiremos al firmarse el boleto el diez por ciento en seña a todos los compradores admitiendo giros contra Bancos. No habra escepciones. Caso de lluvia se transferira el remate para el dia de fiesta siguiente.

Por referencias y planos ocurrase en La Plata, nicasa Avenida 7 entre 49 y 50, Juan A. Carbonell y Cia. B. Aires. estudio del Dr. Luis F. Pintos, Rivadavia 515 pnn. Brandzen, oficina del Escribano D. Rufino M. Martinez, quien autorizara todas las escrituras. Los interesados pueden tomar los dias 30 de Mayo y 2 de Junio en la capital tren que sale a las 7.50 y 8 20 de la Estacion Constitucion y de La Plata el que sale a las 7.35 a.m.

Escusamos decir que los titulos son garantidos porque los que nos conocen deben tener la seguridad que al encargarnos de esta operacion hemos revisado todos los documentos. 191 m8 jn2

MINISTERIO DEL INTERIOR

Habiendo dejado sin efecto la licitacion a que se llamo por aviso del 9 de Enero pasado para la terminacion de las obras de Riachuelo, por no haberse llenado los requisitos exigidos por la ley, llamase a nuevas propuestas por el termino de 30 dias para la terminacion de dichas obras con sujecion al proyecto definitivo de las mismas que podran consultar los interesados desde la fecha en el Departamento de Obras Publicas, y en la Secretaria de la Comisaria Administradora de dichas obras.

Las bases a que deben sujetarse los proponentes, ademas de las ya establecidas, son las siguientes:

1° En las propuestas debera fijarse un plazo aproximativo para la terminacion de las obras.

2° La expropiacion de los terrenos que fueren necesarios sera por cuenta de los proponentes.

3° Los precios de las obras seran unitarios—El pago se verificara en virtud de certificados mensuales que formulara el contratista de acuerdo con el inspector tecnico nacional de las obras que el gobierno nombre y que dependera del departamento de obras publicas.

4° Los proponentes se obligaran a refaccionar y reconstruir y reforzar los malecones existentes y en los puntos que se requiera mediante el previo convenio con el inspector.

5° El tren de dragado y demas utiles que se hallan a cargo de la comision administradora de las obras del Riachuelo, deberá ser recibido por los contratistas y será tenido en cuenta al formular los precios unitarios.

La entrega del tren del dragado como de cualquier otros utiles que los empresarios reciban, se hara bajo inventario, en el que se establecera el estado en que dichos utiles se encuentren a fin de que sean devueltos al gobierno a la terminacion de los trabajos sin mas deterio que el correspondiente al uso natural.

Las propuestas deberan presentarse en papel sellado de cinco pesos m/n. y acompañadas con un certificado de depósito en el Banco Nacional por importe del 1 o/o del valor de las obras y á la orden del Ministerio del Interior.

La apertura de las propuestas tendrá lugar en la secretaria del Ministerio del Interior, el dia 9 de Junio del corriente año, á las 2 p m., en presencia del escribano mayor de gobierno y de los interesados que quieran concurrir al acto.—Buenos Aires, Mayo 9 de 1889.— EL SUB SECRETARIO.

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne.s Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, in Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Remedies.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

The cheapest and most efectual Dip in the market.

It costs a fifth of the price of Tobacco Dips.

It is the easiest of application, cold water only required.

It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.

It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.

See Testimonials from Flockowners in the Argentine Republic.

Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.

The buoyancy of business this morning was so pronounced that the whole market rushed in to take the tide on the flood. All the stocks on quotation, and they are innumerable, were eagerly snapped at; rates rose at a marvellous pace, and but that the violence of the pace threatens a collapse, it is not beyond the range of probability that June will be a month of "boom" in stocks. Attention was naturally most absorbed in the speculation in the sovereign stock, which bounded up to 261 for cash and 264 for end of month, closing buyers. There was a rumour afloat that a further increase of the capital is in project on a gold basis, and should this prove true, holders will not let go under 300. As matters stand at present, they promise soon to reach 270. Constructors and La Plata Market Shares were firm at 138 and 134 respectively. Flores Constructors advanced to 119 for cash and 121 for end of month. Bolsa Bank Scrip spurted up to 63.50 and 64 50 for same dates. La Plata Moles were quiet at 168. Credito Real changed hands in round lots at 146.50 and 147 for end of month, and Catalinas bounded up to 169 for cash. Some of the gold bonds of the City of Buenos Aires Mortgage Bank were quoted at 93 to 95. Cedulas were quiet; the National series firm, and Provincial reflecting satisfactory improvement.

The following is a summary of operations effected this afternoon during the first ring:—

A project for a canal 100 leagues long has been laid before the National Government. It will start from the Rio Colorado, and will debouch in San Blas Bay, a port of the first importance. The proposers have the capital ready for the work.

The Commercial Judge has annulled the bankruptcy of Messrs. Arnoldi and Brussa. Mr Jose Bernasconi took over the business, paying 40 o/o to the creditors.

Three new companies have asked for approval of statutes; Sociedad Destiladora Cooperativa, capital half a million; Metropolitan Tramways Company, capital £450,000 stg, and *Wochenblatt* Newspaper Co., capital 50,000 dols.

Messrs. Cerruti and Bouzon have applied for leave to work their concession of timber land in the Chaco.

The fast Italian s.s. Duca di Galliera sails on Monday for Genoa. She has a complete list of first-class passengers, and will take a large mail.

The revival in National Bank shares was the great feature of the market. Money has suddenly grown easy, and the news current is that the capital of the Bank is to be increased, which, of course, gives shareholders the right to the new shares at par. We have not heard as yet the amount of the new capital, but it will be sufficient to enable the Bank to buy gold and come in under the new banking law. The project for increasing the capital will be laid before Congress in a few days.

The s. s. 'Montevidean', Allan Line, arrived at Montevideo to-day with 4,000 tons of cargo; her samples and papers will be up on Monday.

Business at the second hour showed signs of a reaction, a quieter tendency taking the place of the fierce spurt of the morning. National Bank shares advanced to 266, but then grew weaker, and fluctuating down to 264.50 closed between buyers and sellers at this rate; one sale was effected for Monday at 263. Bolsa Bank scrip improved to 64.50. Pobladora shares opened at 170 and gave way to 165, closing at 167.50. Flores Constructors were firm. Some 40 o/o scrip of the City of Buenos Aires Mortgage Bank changed hands at 40, and a new stock, the Credito Nacional, made its debut with a meteoric flare-up of 10 points, starting at 110 and closing at 120 for the end of the month. La Plata Moles were steady Credito Real were also firm, at 146 for cash and 147.50 for the end of the month. Catalinas at one moment were quoted at 172, but finally closed at 168.50 for the end of the month, and Constructors were a trifle weaker. Cedulas were fairly dealt in, but O occupied most attention, nearly half a million being disposed of at 75.50 to 75.60.

The gold premium was very stiff to-day in the neighbourhood of 160, and at the last moment this was the rate for small amounts, though large sums were done down to 159.70.

Messrs. Peters Bros. changed into their new quarters to-day, Calle Balcarce 373, alongside our time-untold friends, Parry and Co.

The National Bank begins discounting again on Monday, and we believe the Provincial Bank also. The exchange market is very active, large amounts being passed to-day at 47⅛d and 4.97 francs Paris. The tendency is a trifle weaker.

It was said to-day that 45,000 National Bank Shares taken off the market at the last liquidation go to London, having been taken up by one of the members of the syndicate formed to put the Shares up the "vencimientos" in National Bank Shares alone for yesterday's liquidation embraced 372,600 Shares, exclusive of 157,555 sold last month for end of June.

"VILLA MODELO"

Easy terms of Payment

The attention of the English-speaking population of Buenos Ayres is directed to build sites in the newly projected town of "Villa Modelo," one square from the Villa Catalinas Station on the Rosario Railway, within half an hour's journey of the Central Station.

The land has cedulas on it, and the conditions of purchase are most favourable. A large market will soon be in course of construction. These lands are rapidly increasing in value and intending purchasers should apply at once, to

A. J. UNDERWOOD.
